What makes our towers different?

Mast Section Unblocking System (MSU)

Automatic Safety Blocking System (ASB)

Auto-brake Winch (AL-KO 900)
Complies with CE Machinery Directives.

Internal Pendulum Brake System (IPB)

Reinforced Aluminium Sections (EN-AW 6082 T6). Galvanised steel wire rope. Stainless steel magnetic fastener bolts (Neodymium).

More mast overlap.
Prevent fishing rod effect.

4 heavy-duty wheels (Ø100mm) with aluminium core & steel fastening plates (secured by 4 bolts each).
Spirit level

60 x 60 mm Reinforced forks. Maximum strength.
Adjustable & detachable design.

Cable resend system with steel pulleys.

Fitted with 4 stabiliser braces for greater lift stability.

Leveller screw jacks with double thread for a quick adjustment and chrome foot plates with non-slip injection moulded rubber pads.

Steel plate to reinforce the securing of the mast sections to the base. Integrated manual holder.

Fold-away handles with Ø100mm wheels for horizontal transportation & loading into vehicles.
